

KIDS STEVE TRASH!

IN-HOUSE FIELD TRIPS!

AMAZINGLY FUN magic, music, and funny stuff, with a message. Your kids will laugh. Your kids will gasp in amazement. Your kids will learn "the good stuff".

SHOW LENGTHS Each show is 45 minutes long, with a Q&A at the end of each show.

SHOW LEARNING Steve provides exclusive video (from Steve's PBS show) links that support all the show ideas. You can download or view these online anytime, anywhere, for FREE. These videos reinforce the science, character, or environment ideas that the kids have learned in the LIVE show and allow the information to stay with your kids.

THE BEST SIZE AUDIENCE Steve can perform best for audiences 20-300 people. Please contact us for audiences more than 300 people.

TECHNICAL INFORMATION

- Steve Trash® will provide his own high quality sound system - you provide the electricity and the kids!
- Steve is able to perform in all sorts of indoor spaces including: Gyms, Cafeterias, Cafe-toriums, and Auditoriums.
- Each show requires 60 minutes to load in (Steve travels with a technical helper and a LOT of props). Each Show requires 30 minutes to load out.

WHO IS STEVE TRASH?

Steve Trash is a Rockin' Eco Hero, magician and amazing kid entertainer. He has his own national PBS show called STEVE TRASH SCIENCE (seen all over the US). He's toured all over the world including: Japan, Australia, Canada, Portugal, Spain, and the UAE. He's won awards for his work in environmental education from the EEAA and the Daughters of the

American Revolution. He's a founding board member of Keep the Shoals Beautiful (a Keep America Beautiful affiliate). He's appeared at the Magic Castle in Hollywood, California, and he has lots of fans all over the world: including a famous one - LeVar Burton (Reading Rainbow and Star Trek) says, "I am a Steve Trash Fan".

3 GREAT SHOWS!

Show #1 - CHARACTER

- Why is it important for kids to think of themselves as problem solvers?
- When kids have strong emotions, what's the best thing to do with them?
- Which is the better version of a kid? The Big You or the Little You?
- Does being trustworthy, caring, and respectful really matter?

Show #2 - SCIENCE

- What is the scientific method and how is it useful to kids?
- What's the difference between magic and science?
- Why does everyone need to be science-literate?
- How can the EDP - Engineering Design Process help kids solve problems?

Show #3 - ENVIRONMENT

- What are the magic words for making all garbage completely disappear?
- What does recycling have in common with the air, land, and water of planet Earth?
- What are natural resources and how can we use them?
- What's the difference between renewable and non-renewable?
- What does non-renewable mean?

WHAT PEOPLE SAY ...

"Thank you Steve Trash! My kids loved the shows and are still talking about the amazing magic tricks!" - Angela Kelly - 21st CCLC - Bridgeport, AL

"Our students were captivated and engaged! Steve is simply TRASH-TASTIC!!!" - Michelle Norwood - 21st Century After School - Crossville, AL

"Steve Trash does the best shows! Our kids love them!" - Madge Smith - Pisgah High School 21st CCLC Site Coordinator

"The Steve Trash show never disappoints! The kids are always intrigued, captivated, and amazed! Teachers are also wowed by his performances. He has a wonderful personality that is so fitting for school-aged children. It's been a joy to have Steve in our Summer program for years and we keep asking him to return! Be prepared for kids to drop their jaws! They will love any show you choose!" - Mrs. Jacqueline Clanton, Ed.S - Collinsville High School 21st CCLC Site Coordinator

"Thank you! Our staff and students truly enjoyed your program. You are always a favorite! It's always great to share positive messages with our students and you present the message to them in an exciting and entertaining way. You provide them with a lifetime memory! Thanks for what you do!" - Beverly Bone - Gadsden City Schools
